## Objective

---

Seeking summer Co-Op to apply full stack development skills.

## Education

---

**Rochester Institute of Technology,** 08/2022 – 05/2026  
*Web and Mobile Computing, B.S., minor in German language and culture* Rochester, NY

- GPA: 3.0, GPA in Major: 3.23
- Dean's List - Spring 2024
- Related Courses: Applied Data Structures and Algorithms, Software Design Principles and Patterns, Database Application Development, Client Programming
- Activities: Pi Kappa Phi, Intramural Hockey, Intramural Soccer

**IES Abroad: Berlin, Semester abroad** 08/2024 – 12/2024  
Berlin, Germany

**Pomfret School, High school diploma** 09/2018 – 05/2022  
Pomfret, CT

## Professional Experience

---

**Risk Strategies Company, Operations Associate** 06/2023 – 08/2024  
Boston, MA

- Developed a full-stack management system using C#, HTML, and SQL that enables accountants and insurance brokers to efficiently look up company records
- Engineered scripts to transform unstructured data from PDFs and CSV files into a uniform SQL database, automating a previously manual process
- Learned agile development practices with Microsoft Azure DevOps to manage workflows, track issues, and deliver iterative improvements

**Camp Burgess & Hayward (South Shore YMCA), Camp Counselor** 06/2021 – 08/2022  
Sandwich, MA  
Led daily activities and resolved conflicts among campers, building experience in leadership, teamwork, and communication

## Projects

---

**Unified Fantasy Football, Side Project** 02/2025 – present

- Building a React based front end with responsive UI that allows users to manage Fantasy sports teams across the multiple European Football Competitions
- Implementing a Node.js backend with MySQL database to store and manage player statistics, team rosters, and user information.
- Allows users to select which competitions they want to be eligible in their custom Fantasy league. Plans to implement more than just European football, including other sports, and implementing the ability for the user to create a fantasy league for the sport and competition of their choice with user inputted data.

## Skills

---
